

Assignment 1

Math jokes are the best jokes

due Sep. 3

Goal: identify the core idea in a non-obviously mathematical situation.

Explain in at most 200 words how the joke would be affected if the word 'TWICE' was removed. Would it be more or less funny? Why?

Your argument should be expressed concisely and in simple words, as you would to explain the joke to a younger sibling.

Presentation: use the template available on Blackboard to typeset your answer and submit your paper in .pdf format, under the name m150f19_HW1_yourlastname.pdf

Grading:

- Format: 1 point
- Spelling: 1 point
- Completeness: 1 point
- Clarity: 2 points
